INFORMAZIONI IMPORTANTI
Rialto è una linea in gres porcellanato prodotto con metodi industriali ma che presenta caratteristiche estetiche di una piastrella craquelé fatta a mano. Tutti gli smalti craquelé devono essere protetti con un sigillante applicato prima e dopo lo stucco, in particolare modo nelle zone che rimangono umide. Questo procedimento dovrebbe essere ripetuto a distanza di 6 mesi ma non apporterà nessun cambiamento alla superficie della piastrella. Si prega di notare che le piastrelle sulle quali non è stato applicato il sigillante potrebbero macchiarsi.

IMPORTANT INFORMATION
Rialto is a line of porcelain stone tiles produced with industrial methods, but that resemble handmade craquelé tiles. The craquelé glaze must be protected with a sealant, which must be applied before and after the stucco, especially in areas that come into contact with water. This procedure should be repeated every six months and will not alter the surface of the tile in any way. Please note that the sealant prevents the tiles from staining.

ВАЖНАЯ ИНФОРМАЦИЯ
Rialto - это коллекция из керамического гранита, произведенная промышленным методом, но обладающая эстетическими характеристиками craquelé (кракелюра), сделанного вручную. Все виды глазури craquelé должны быть защищены укрепителем, нанесенным до и после затирки, особенно в тех зонах, которые подвергаются воздействию влаги. Эта обработка должна быть повторена через 6 месяцев и не меняет никоим образом поверхность плитки. Просим обратить внимание, что на плитке, не обработанной описанным выше способом, могут появляться пятна.
