"Nello spirito di una rivisitazione del più nobile fra i prodotti ceramici si ripropone qui la piastrella smaltata ottenuta per trafila che permette ad ogni pezzo di essere differente da tutti gli altri."

"The idea is to lend a new dimension to the most noble of ceramics: glazed tiles made by extrusion, making every single piece different to the others"

Silvia Giacobazzi

silvia giacobazzi

Silvia Giacobazzi svolge la sua professione di architetto nell'ambito del restauro, del recupero di fabbricati dismessi o nuove costruzioni civili ed industriali, da circa vent'anni, in Italia, Francia e Spagna. Si occupa di architetture d'interni, interior design ed arredo urbano, oltre che di allestimenti per eventi legati a spazi espositivi o a performance nell'ambito dell'arte contemporanea. Collabora con industrie italiane come direttore artistico o come industrial designer. Attualmente è impegnata nella realizzazione di quattro grandi interventi di recupero fra cui un vasto complesso di archeologia industriale, due complessi residenziali di origine sette-ottocentesca con parchi secolari ed a un piano di recupero in centro storico. Svolge conferenze legate alla propria attività ed i suoi lavori sono frequentemente pubblicati nelle riviste di settore.

Silvia Giacobazzi has been pursuing her architectural career in the renovation area, working on restoring abandoned buildings and new civil and industrial construction since almost twenty years, in Italy, France and Spain. She has been working in interior architecture, interior design and urban furnishing, as well as on installations for events on exhibition or performance spaces for contemporary art. She has been cooperating with Italian manufacturers as art director or industrial designer. She is currently working on four large renovation projects including a huge complex of industrial archaeology, two housing complexes from the 18th and 19th centuries with century-old parks and a restoration plan for an historic centre. She conducts conferences related to her work and her projects are frequently published in trade magazines.

Si ripropone qui la piastrella smaltata ottenuta per trafilata che permette ad ogni pezzo di essere differente da tutti gli altri, giocando su eleganti effetti di luce che rendono morbide le superfici. Estremamente ricercata, si presenta non come un classico, ma come una rinnovata e raffinata proposta per lo stile di vita contemporaneo. Il formato 5,3·19,8 viene realizzato in nove colori, oltre che in bianco, nero e avorio, in tre diversi grigi e in una palette di tre terre con tonalità spezziate abbinabili alla serie Flow. Una tavolozza su misura, a cui attingere per disegnare interni di tendenza.

Glazed tiles made by extrusion, making every single piece different from the others. This gives the surface its soft appearance, the elegant bouncing of light broken up by the alternation of flat and curved slabs. Ceramica is not a classic but an absolutely elegant, fresh, and refined product for contemporary lifestyles. The attention to detail, the pursuit of the right shade and the shine makes ceramica incomparably unique. The 5·19.8 sizes, already available in white, black and ivo-ry, can now be found in three different shades of grey, which can be combined with the FLOW series, and in 3 earthy shades with spicy tones. A palette of colours that can be dipped into to create the trendiest of interiors.

ceramica + flow

Per una maggiore versatilità di impiego, Ceramica è abbinabile a elementi della collezione FLOW - realizzata con il processo artigianale della trafilatura. In un contrasto armonico tra texture di matrice industriale e fattura artigianale declinate negli stessi colori, un concept privilegiato da Mutina. Una tavolozza su misura, a cui attingere per disegnare interni di tendenza.

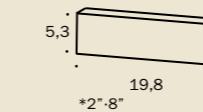

Combined with the Flow collection, declined in the same color nuances, Ceramica presents a harmonic contrast of both industrial and handmade textures. This smooth blend of-industrially-created textures and artisan methods that come in the same colours is a concept Mutina is very proud of.
