60 ANNI DI ECCELLENZA E DI INNOVAZIONE NELLA CERAMICA

Sessant'anni rappresentano un traguardo significativo per ogni azienda. Giunta fin qui, Emilceramica torna idealmente alle origini, scegliendo di rendere **omaggio all'argilla, la prima delle materie prime che compongono la ceramica.**

Sixty è una collezione celebrativa che accantona ogni sovrastruttura decorativa e ogni intento mimetico per creare una superficie fatta di pura materia. Ispirata alla terra nuda, **Sixty** si esprime attraverso le categorie estetiche essenziali: la forma, il colore, il carattere che la superficie rivela sotto la luce. I medesimi elementi sui quali **Emilceramica** lavora da sessant'anni.

60 YEARS OF EXCELLENCE AND INNOVATION IN CERAMIC TILES

Sixty years constitutes a significant milestone for any company. Having come this far, Emilceramica ideally returns to its roots, choosing to pay **tribute to clay, the number one raw material in ceramic tiles.**

Sixty is a celebratory collection that sets aside all decorative superstructures and mimetic intentions, choosing instead to create a surface comprised of pure material. Inspired by bare earth, **Sixty** expresses its message through the essential aesthetic categories: the shape, colour and character that the surface reveals in the light. These are the same elements that **Emilceramica** has been working on for sixty years.

SIXTY_ N U D A T E R R A

FRAMMENTI DI MEMORIA NEI COLORI DELLA MATERIA

Sixty veste ambienti che, come istantanee ritrovate, invitano a ripercorrere gli ultimi sessant'anni attraverso sottili ma puntuali riferimenti stilistici e oggetti di design. Un'occasione per approfondire anche la ricerca che, da sempre, Emilceramica conduce intorno alla materia ceramica.

Il percorso attraverso il tempo segue un fil rouge cromatico che associa **a ciascun decennio una tinta dominante**. Intorno a essa vengono creati alcuni tra i tanti abbinamenti possibili all'interno di una palette coerente ed equilibrata. Al contempo gli ambienti esplorano le enormi potenzialità che, opportunamente combinati, formati e superfici danno alla collezione.

SNIPPETS OF MEMORY IN THE COLOURS OF THE MATERIAL

Sixty decorates spaces which, like rediscovered snapshots, invite us to retrace the past sixty years through subtle yet precise stylistic references and design objects. An opportunity to delve deeper into the research that Emilceramica has always conducted in ceramic materials.

This journey through time follows a chromatic fil rouge that associates **each decade with a dominant colour**. Revolving around these colours, the collection highlights some of the many combinations possible within a harmonious, well-balanced palette. At the same time, spaces explore the huge potential which cleverly combined sizes and surfaces give the collection.

1961_fango

Ci riportano agli anni Sessanta le atmosfere dense, calde e confortevoli di **Fango**, accostabile con grande naturalezza ai toni del Sabbia e dell'Antracite. A livello stilistico Sixty si dimostra completa e versatile.

We are whisked back to the Sixties by the condensed, cosy, cocooning atmospheres of **Fango**, which combines with superb ease with the shades of Sabbia and Antracite. Stylistically, Sixty is a complete and versatile collection.

Antracite Silktech Rett. 60x120 - 23^{5/8}"x47^{1/4}" - Antracite Silktech Rett. 60x120 - 23^{5/8}"x47^{1/4}" - Minibrick Matt Timbro Fango 5x15 - 1^{15/16}"x5^{7/8}"

1971_cielo

Proviene dai grafismi tipici degli anni Settanta il carta da zucchero del colore **Cielo**, che trova un sofisticato contrappunto nei toni caldi e terrosi di Sabbia e di Fango. Combinando liberamente le versioni disponibili, esagona e mattoncino si rivelano straordinari strumenti di design.

Classic Seventies patterns inspire **Cielo** with its baby blue tint, which discovers a sophisticated counterpoint in the warm, earthy shades of Sabbia and Fango. The proposed hexagon and brick tiles can be combined with the utmost freedom, proving to be amazing design tools.

Fango Minibrick Matt Timbro 5x15 - 1¹⁵/₁₆"x5⁷/₈" - Cielo Esagona 21x18,2 - 8¹/₄"x7³/₁₆"

1981_salvia

Usato largamente negli eclettici e sovversivi anni Ottanta, **Salvia** accoglie inserti di Antracite, di Fango, di Talco e perfino di Cielo.
All'interno di Sixty scaturiscono con sorprendente naturalezza accostamenti cromatici per nulla scontati.

Used widely in the eclectic and subversive Eighties, **Salvia** welcomes inserts in Antracite, Fango, Talco and even Cielo.
Colour combinations that are far from clichéd appear surprisingly natural in Sixty.

1991_talco

Chiara omaggio al minimalismo spensierato e divertito degli anni Novanta, dominato da spazi bianchi, ibridi e flessibili, **Talco** rappresenta il baricentro cromatico della palette colori, abbinabile in modo perfettamente trasversale. Accanto al colore, formati e superfici sono elementi chiave della collezione.

A clear tribute to the free and easy, fun-loving minimalism of the Nineties, dominated by flexible, hybrid white spaces, **Talco** represents the chromatic centre of gravity of the colour palette, with its ability to combine harmoniously with all other shades. Alongside colour, sizes and surfaces are other key elements of the collection.

Talco Silktech Rett. 60x120 - 23^{5/8}"x47^{1/4}" | Talco Silktech Rett. 120x120 - 47^{1/4}"x47^{1/4}" | Minibrick Matt/Lux Cenere 5x15 - 1^{15/16}"x5^{7/8}"

Minibrick Matt/Lux Cenere 5x15 - 1^{5/16}"x5^{7/8}"

2001_antracite

Elegante e inteso, **Antracite** rende ancor più intimo il grigio, colore icona del minimalismo, che domina il cambio di millennio, prestandosi al contempo ad abbinamenti cromatici inediti e sofisticati, per esempio con Fango o con Salvia.

Elegant and intense, **Antracite** accentuates the intimacy of grey, the iconic colour of minimalism, which dominates the turn of the millennium, while also lending itself to new and sophisticated colour combinations, for example with Fango or Salvia.

Esagona Antracite 21x18,2 - 8^{1/4}"x7^{3/16}" | Minibrick Matt Timbro/Matt Antracite 5x15 - 1^{15/16}"x5^{7/8}" | Salvia Silktech Rett. 60x120 - 23^{5/8}"x47^{1/4}"
Antracite Silktech Rett. 60x120 - 23^{5/8}"x47^{1/4}"

2011_cenere

L'eclettismo del decennio appena concluso moltiplica i rimandi stilistici, evocati da piccoli dettagli architettonici e da arredi e complementi. **Cenere** è un grigio neutro e luminoso che, accostato ai toni beige del Sabbia, rivela un carattere sobrio, accogliente e confortevole.

The eclecticism of the decade that has only just ended multiplies the stylistic allusions, which are evoked by small architectural details and by furnishings and accessories. **Cenere** is a neutral, bright grey which, combined with the beige tones of Sabbia, reveals an understated, cocooning, comfortable character.

Esagona Cielo 21x18,2 - 8¹/₄"x7³/₁₆" | Cielo Silktech Rett. 30x60 - 11³/₁₆"x23⁵/₈" | Cielo Silktech Rett. 60x120 - 23⁵/₈"x47¹/₄"

2021_sabbia

Nel prossimo futuro abiteremo spazi sempre più aperti alla contaminazione e lontani da ogni classificazione, coi quali stabilire un rapporto più sereno: con pacata eleganza **Sabbia** esprime proprio questo auspicio. Grazie ai molti abbinamenti cromatici possibili, ambienti di ogni dimensione trovano in Sixty risposte progettuali tecnicamente ed esteticamente ineccepibili.

In the near future we will inhabit spaces that are increasingly open to external influences and that defy classification; spaces where we can feel more at ease and be our true selves. **Sabbia** expresses precisely this hope with tranquil elegance. Thanks to the countless possible colour combinations, Sixty provides technically and aesthetically flawless design solutions for spaces of any size.

SILKtech SILKtech+

EMIL
CERAMICA

La tecnologia SilkTech combina prestazioni antiscivolo elevate e una superficie ceramica setosa al tatto.

Dalla continua ricerca dei laboratori R&D Emilgroup è nata **SilkTech**, una **innovativa tecnologia che aumenta il coefficiente di attrito del gres porcellanato, mantenendo un'incredibile morbidezza superficiale**. Il risultato è un prodotto che assicura una performance tecnica superiore in termini di **sicurezza, piacevolezza tattile, facilità di pulizia e resistenza nel tempo**.

Formulazioni di prodotto diverse permettono di raggiungere valori di scivolosità differenti, secondo i principali standard internazionali:
SilkTech: R10 (DIN51130) // B (A+B) (DIN51097) // PTV>36 (BS7976) // P3 (AS4586) // classe 2 (41901)
SilkTech+: R11 (DIN51130) // C (A+B+C) (DIN51097) // PTV>36 (BS7976) // P4 (AS4586) // classe 3 (41901)

Il processo della tecnologia SilkTech rende le **caratteristiche** di morbidezza e resistenza allo scivolamento **parti integranti della materia**. L'assenza di trattamenti superficiali assicura il mantenimento dell'effetto antislip per **l'intero ciclo di vita del prodotto** e la superficie soffice e vellutata favorisce una **straordinaria facilità di manutenzione e pulizia**.

Una rivoluzione ottenuta innovando tutte le fasi industriali, dalla formulazione della materia alla cottura finale.

SilkTech diventa quindi la soluzione più adatta sia in **spazi residenziali**, grazie alla piacevolezza al tatto, sia in **ambienti pubblici**, grazie all'effetto antislip elevato. L'incredibile **versatilità** rende SilkTech un prezioso alleato anche per la progettazione di spazi dove risulti necessaria una **continuità architettonica tra interno ed esterno**.

Le collezioni realizzate con l'applicazione della tecnologia SilkTech consentono di rispondere al bisogno di **prestazioni sempre più elevate** richieste dal mercato, assicurando la possibilità di definire progetti architettonici complessi, **coniugando alte performance tecniche, design estetico Made in Italy ed estrema piacevolezza tattile**.

La technologie SilkTech accorde une forte antiglissance avec une surface céramique soyeuse au toucher. La recherche incessante des laboratoires R&D Emilgroup a abouti à SilkTech, une technologie révolutionnaire qui augmente le coefficient de frottement du grès cérame, tout en conservant une incroyable douceur en surface. Le résultat est un produit garantissant une performance technique supérieure en termes de sécurité, de douceur tactile, de facilité d'entretien et de résistance à long terme.

Les différentes formulations de produit ont différentes valeurs de glissance, selon les principales normes internationales :
SilkTech: R10 (DIN51130) // B (A+B) (DIN51097) // PTV>36 (BS7976) // P3 (AS4586) // classe 2 (41901)
SilkTech+: R11 (DIN51130) // C (A+B+C) (DIN51097) // PTV>36 (BS7976) // P4 (AS4586) // classe 3 (41901)

SilkTech est une technologie qui rend les caractéristiques de douceur et de résistance à la glissance parties intégrantes de la matière. L'absence de traitements superficiels assure le maintien de l'effet antidérapant pendant tout le cycle de vie du produit, et la surface douce et veloutée apporte une extraordinaire facilité d'entretien et de nettoyage.

Une révolution obtenue en innovant toutes les phases industrielles, de la formulation de la matière à la cuisson finale.

SilkTech devient ainsi la meilleure solution dans les espaces résidentiels, en raison de sa grande douceur au toucher, comme dans les lieux publics en raison de son excellente valeur d'antiglissance. L'étonnante souplesse d'emploi fait de SilkTech un précieux allié aussi pour concevoir les espaces exigeant une continuité architecturale entre intérieur et extérieur.

Les collections basées sur la technologie SilkTech permettent de répondre à la demande du marché qui a besoin de performances de plus en plus élevées pour réaliser des projets complexes d'architecture en conciliant hautes performances techniques, esthétique Made in Italy et douceur extrême au toucher.

Die SilkTech-Technologie verbindet hohe Rutschhemmung mit seidiger Haptik der keramischen Oberfläche. Der kontinuierlichen Forschungsarbeit der R&D-Labors von Emilgroup verdankt sich SilkTech, eine innovative Technologie, die den Reibungskoeffizienten von Feinsteinzeug erhöht und dabei gleichzeitig die unglaublich weiche Haptik der Oberflächen beibehält. Das mit SilkTech veredelte Produkt bietet überlegene Leistungsmerkmale in puncto Sicherheit, angenehme Haptik, Pflegeleichtigkeit und Langlebigkeit.

Unterschiedliche Produktausführungen ermöglichen verschiedene Rutschhemmungen gemäß den internationalen Standards:
SilkTech: R10 (DIN51130) // B (A+B) (DIN51097) // PTV>36 (BS7976) // P3 (AS4586) // Klasse 2 (41901)
SilkTech+: R11 (DIN51130) // C (A+B+C) (DIN51097) // PTV>36 (BS7976) // P4 (AS4586) // Klasse 3 (41901)

Die SilkTech-Veredelung lässt die weiche, rutschhemmende Oberflächenbeschaffenheit zu einem festen Bestandteil des Materials werden. Da die Oberfläche nicht behandelt wird, hält die rutschhemmende Wirkung über den gesamten Produktlebenszyklus an. Die samtig weiche Haptik macht das Produkt außerordentlich pflegeleicht.

Die bahnbrechende Entwicklung umfasst alle Herstellungsphasen von der Materialrezeptur bis hin zum letzten Brennvorgang.

SilkTech ist daher die ideale Lösung nicht nur für den Wohnungsbaubereich – dank der angenehmen Haptik – sondern auch für öffentliche Bereiche, wo die besonders hohe Rutschhemmung von Vorteil ist. Ihre unglaubliche Vielseitigkeit macht SilkTech auch bei der Planung von Räumen, die eine durchgängige Optik von Innen- und Außenbereichen erfordern, zu einem wertvollen Verbündeten.

Die mit SilkTech-Technologie hergestellten Kollektionen werden den steigenden Leistungsanforderungen des Marktes gerecht und ermöglichen die Planung komplexer Architekturprojekte, da sie hohe technische Leistungsmerkmale mit ästhetischem Design Made in Italy und außerordentlich attraktiver Haptik kombinieren.

The SilkTech technology combines excellent anti-slip performances with a ceramic surface that's silky to the touch.

The ceaseless research of the Emilgroup R&D laboratories now gives us **SilkTech**, an **innovative technology that increases the friction coefficient of porcelain stoneware, while retaining an incredibly soft-feeling surface**. The result is a product that guarantees superior technical performance in terms of **safety, tactile appeal, ease of cleaning and durability over time**.

Different product formulations enable different anti-slip resistance values, in accordance with the main international standards:
SilkTech: R10 (DIN51130) // B (A+B) (DIN51097) // PTV>36 (BS7976) // P3 (AS4586) // class 2 (41901)
SilkTech+: R11 (DIN51130) // C (A+B+C) (DIN51097) // PTV>36 (BS7976) // P4 (AS4586) // class 3 (41901)

The SilkTech technology process makes softness and skid resistance **characteristics** an **integral part of the material**. Since no surface treatments are involved, the anti-slip effect is maintained **throughout the product's life cycle** and the soft, velvety surface facilitates **amazingly easy cleaning and care**.

A revolution achieved by innovating all industrial phases, from the material's formulation through to final firing.

SilkTech is thus the ideal solution both in **residential areas**, thanks to its pleasant "feel", and in **public locations**, due to its excellent anti-slip properties. Incredibly **versatile**, SilkTech is also an invaluable aid when designing spaces that require **architectural continuity between indoors and outdoors**.

Collections manufactured with the SilkTech technology meet the market's demands for **better and better performances** and are the basis for complex architectural projects, combining **outstanding technical performances, stunning Italian design and a surface exceptionally pleasant to the touch**.

La tecnología SilkTech combina unas elevadas prestaciones antideslizantes y una superficie cerámica sedosa al tacto. Gracias a la continua investigación de los laboratorios R&D Emilgroup ha nacido SilkTech, una innovadora tecnología que aumenta el coeficiente de fricción del gres porcelánico, manteniendo una increíble suavidad superficial. El resultado es un producto que brinda un rendimiento técnico superior, pues es seguro, agradable al tacto, fácil de limpiar y duradero.

Formulaciones de producto diversas permitirán grados de deslizamiento diferentes, de acuerdo con los principales estándares internacionales:
SilkTech: R10 (DIN51130) // B (A+B) (DIN51097) // PTV>36 (BS7976) // P3 (AS4586) // clase 2 (41901)
SilkTech+: R11 (DIN51130) // C (A+B+C) (DIN51097) // PTV>36 (BS7976) // P4 (AS4586) // clase 3 (41901)

El proceso de la tecnología SilkTech hace que las características de suavidad y resistencia al deslizamiento formen parte integrante del material. La inexistencia de tratamientos superficiales asegura el mantenimiento del efecto antideslizante a lo largo de todo el ciclo de vida del producto; además, la superficie suave y sedosa propicia una extraordinaria facilidad de mantenimiento y de limpieza.

Una revolución fruto de la innovación aplicada a todas las fases industriales, desde la formulación del material hasta la cocción final.

SilkTech, de este modo, se convierte en la solución idónea tanto para ámbitos residenciales, gracias a lo agradable de su tacto, como para espacios públicos, gracias a sus magníficas propiedades antideslizantes. La increíble versatilidad de SilkTech lo convierte asimismo en un valioso aliado para la proyección de espacios en los que resulte necesario mantener cierta continuidad arquitectónica entre interior y exterior.

Las colecciones realizadas aplicando la tecnología SilkTech permiten responder a la necesidad de contar con unas prestaciones cada vez más elevadas, según exige el mercado, asegurando la factibilidad de proyectos arquitectónicos complejos que requieran conjugar unas altas prestaciones técnicas, un diseño estético Made in Italy y unas superficies extraordinariamente agradables al tacto.

Технология SilkTech позволяет получать высокие характеристики нескользкости и шелковистую на ощупь керамическую поверхность. Благодаря непрерывным изысканиям исследовательских лабораторий Emilgroup появилась на свет SilkTech - инновационная технология, повышающая коэффициент трения керамогранита, сохраняя невероятную мягкость поверхности. Результат - изделие с высочайшими техническими характеристиками безопасности, тактильной приятностью, простотой чистки и долговечностью.

Разные составы смеси изделия позволяют добиться различных коэффициентов трения в соответствии с основными международными стандартами:
SilkTech: R10 (DIN51130) // B (A+B) (DIN51097) // PTV>36 (BS7976) // P3 (AS4586) // класс 2 (41901)
SilkTech+: R11 (DIN51130) // C (A+B+C) (DIN51097) // PTV>36 (BS7976) // P4 (AS4586) // класс 3 (41901)

Технологический процесс SilkTech превращает характеристики мягкости и сопротивления скольжению в неотъемлемые свойства этого материала. Отсутствие обработки поверхности гарантирует сохранение эффекта нескользкости в течение всего жизненного цикла продукции, а мягкая и шелковистая поверхность обеспечивает удивительную легкость ухода и чистки.

Это революционное достижение обеспечивается инновациями на всех этапах производственного процесса - от разработки состава материала до окончательного обжига.

Таким образом, SilkTech превращается в наиболее удачное решение как для жилых пространств благодаря мягкости на ощупь, так и для общественных объектов благодаря высокой нескользкости. Невероятная универсальность превращает SilkTech в ценное средство при проектировании таких объектов, в которых необходима архитектурная сочетаемость внутренних и наружных пространств.

Коллекции, созданные с использованием технологии SilkTech, позволяют отвечать на требования все более высоких характеристик, запрашиваемых рынком, гарантируя возможность реализации сложных архитектурных проектов, сочетающих в себе высокие технические характеристики, дизайн эстетики Made in Italy и очень приятные тактильные ощущения.

I colori e le caratteristiche estetiche dei materiali illustrati nel presente catalogo sono da ritenersi puramente indicativi. Le misure dei prodotti qui indicate si intendono nominali e come i pesi ed i colori subiscono le variazioni tipiche del processo ceramico. Emilceramica si riserva la facoltà di modificare in qualunque momento senza preavviso le caratteristiche tecniche, estetiche e i materiali presentati. Tali caratteristiche non sono comunque vincolanti nei termini legali.

Colours and optical features of the materials illustrated in this catalogue are to be regarded as mere indications. Product sizes indicated are nominal and like weights and colours undergo the typical variations of the ceramic process. Emilceramica reserves the right to change the technical and optical features of the materials illustrated at any time and without notice. These features are not legally binding.
