CATALOGO GENERALE

CE.SI.

In ogni attività creativa, colui che crea si fonde con la propria materia, che rappresenta il mondo che lo circonda. Sia che il contadino coltivi il grano o il pittore dipinga un quadro, in ogni tipo di lavoro creativo l'artefice e il suo oggetto diventano un'unica cosa: l'uomo si unisce col mondo nel processo di creazione.

In every creative activity, creator melds in his own matter, which depicts his surrounding world.

Both the farmer, who grows the wheat and the painter, who paints a picture, in any creative work the maker and his object become a unique entity.

The human being connects himself with the world during the creation process.

Erich Fromm
psicoanalista e sociologo

La serie è di particolare effetto grazie al suo aspetto tridimensionale e al gioco di luce ed ombra che la sua superficie sfaccettata crea in presenza della diversa illuminazione.

La gamma di colori lucidi riproposta in colori tradizionali, grazie ai molteplici pezzi speciali a completamento rende le serie metro fruibile in diversi ambienti sia pubblici sia privati.

A vintage collection which proposes a typical classic tile being used in Parisian underground stations since last Century.

Its threedimensional look is really catching and the cut surface creates light and shade effects under lighting.

The glossy traditional colours and the various matching special trims make Metro range suitable both for public and private locations.

I MOSAICI

Il colore ricerca nuove forme espressive: oltrepassa la rigidità della posa ortogonale e si presta a ricoprire spazi curvilinei seguendo il filo imprevedibile della fantasia.

La collezione I MOSAICI offre una gamma di tinte unite, mixate o sfumate, distribuite su tessere 2,5x2,5 - 1x1 - 5x5 - 3x10.

Proposto nel formato 30x30 cm su rete, la gamma si sviluppa su superfici lucide ed opache in gres porcellanato.

La vetrificazione dello smalto ad alte temperature consente di ottenere superfici più luminose e contrastate che esaltano le qualità del colore.

Colour in searching for new expressive shapes. It goes beyond the stiffness of orthogonal laying and leads itself to covering curvilinear areas following the unpredictable theme of the imagination.

I MOSAICI collection offers a range of plain, mixed or shaded hues spread over tiles in sizes 2,5x2,5, 1x1, 5x5 and 3x10cm.

Offered in the mesh-backed 30x30 cm size, the range develops over glossy and matt surfaces in porcelain stoneware.

Vitrification of the glaze, baked at extremely high temperatures, allows more luminous and contrast surfaces to be achieved which magnify all colour qualities.
